Glossary

179 terms. Each one points at the page the fact came from.

Contact: One interaction: a call, chat, task, or email. A transfer usually creates another contact linked by PreviousContactId and NextContactId.

Instance: The Connect container in one Region. It holds users, flows, queues, and numbers. A new account starts at two instances per Region.

Contact flow: The visual program a contact runs. The JSON form is the flow language.

Flow module: A published, reusable piece of a flow. Invoke module runs it. Return ends it. Default quota is 200 modules.

Contact attribute: A string key and value stored on the contact. Lambda, Lex, and Set contact attributes write them. Screen pop reads them.

Customer queue flow: The interruptible flow that runs while the customer waits, before an agent joins.

Whisper flow: Audio played to one party immediately before the customer and agent are joined.

Working queue: The queue selected by Set working queue. Transfer to queue uses it.

Routing profile: The list of queues an agent can receive, with channel concurrency, priority, and delay.

Priority: A number on a queue inside a routing profile. A lower number is served first.

Delay: Seconds a contact must wait before an agent with that profile can receive it.

Routing criteria: Ordered steps that tighten or relax who can take the contact. The successor idea to precision-queue steps.

Proficiency: A level on a predefined attribute for an agent. Default quota is 10 proficiencies per agent.

Queue: Where a contact waits. Standard queues hold customers. Agent queues hold transfers to a specific user, 10 contacts each by default.

Hours of operation: The weekly schedule and time zone attached to a queue. Check hours of operation reads it. Overrides cover holidays.

Quick connect: A one-click transfer target: a user, a queue, or an external number.

DID: A direct inward dial number. In the US it is carried by one carrier and priced per day plus per minute.

Toll-free number: A number the caller does not pay long-distance to dial. US toll-free numbers are registered with SOMOS and can use more than one carrier.

UIFN: Universal International Freephone number. One of the four number types Connect sells, with DID, toll-free, and shared cost.

Porting: Moving a number from another carrier onto Connect. The quota page points you at the same Support form used for quota increases.

CCP: Contact Control Panel. The browser phone and contact UI the agent uses.

Agent workspace: The fuller desktop around the CCP: profiles, cases, step-by-step views, and third-party apps.

Streams API: The amazon-connect-streams library. It embeds or replaces the CCP and listens to agent and contact events.

Softphone media: The WebRTC audio path. It needs outbound UDP 3478 to the Regional TurnNlb domain.

TURN: The relay used when the browser cannot send media directly. The error text names turn:TurnNlb-....elb.region.amazonaws.com:3478.

Lex V2: The bot service Get customer input calls. Connect stores intent and slots on the contact.

Intent: What Lex thinks the caller wants. The flow branches on it.

Slot: A value Lex fills, such as an order id. The flow copies it into an attribute.

Agent assist: The 4 Aug 2026 name for the feature previously called Amazon Q in Connect, which itself included Wisdom.

Amazon Q in Connect: The 2023 name for generative assistance. The admin guide renamed it agent assist on 4 Aug 2026. IAM still shows the wisdom prefix.

Wisdom: The 2020 preview name for agent search and recommendations. Folded into Amazon Q in Connect on 28 Nov 2023.

Connect assistant block: Associates an AI agents domain with the contact so recommendations can run.

Agentic CX: A block that hands the contact to an Agentic CX Designer application and routes on the exit condition.

Live Sync: The 4 Aug 2026 name for Voice+. Priced at 0.01 USD per minute on top of the channel. Trial through 30 Nov 2026 is not billed.

Conversational analytics: The 4 Aug 2026 name for Contact Lens: transcripts, sentiment, redaction, summaries, and categories.

Contact Lens: The former name of conversational analytics. The product page says the function remains.

Real-time analytics: Rules on a live contact, announced 1 Dec 2020. Default quota is 300 concurrent real-time analytics calls.

Post-contact summary: A generated summary after the contact. Preview 28 Nov 2023, generally available 25 Mar 2024.

Evaluation form: A quality scorecard. Preview 29 Nov 2022, generally available 26 Apr 2023. Now part of performance evaluations.

CTR: Contact trace record. The JSON document for a finished contact, streamed to Kinesis or Firehose.

179 terms are in the HTML sheet. This PDF keeps the first 40.
